PROFESSIONAL SUMMARY

Dynamic Corporate Trainer & Consultant with over 12 years of intensive experience in JavaScript technologies for web, mobile, and desktop development. Recognized for delivering impactful training, upskilling experienced professionals across leading MNCs, and providing strategic consulting that bridges technical knowledge with business goals. Expert in fostering practical skills, team collaboration, and adoption of modern web/mobile frameworks and architectures.

CORE COMPETENCIES

- JavaScript (ES6+) & TypeScript: Advanced topics, asynchronous programming, scalable architecture
- Frontend Frameworks: React, Angular, Vue.js, Svelte, SPA development, PWAs, Solid JS, Next.js, Nuxt.js
- Backend & API Integration: Node.js, Express, REST, GraphQL, Nest.js, .NET Framework, .NET Core
- Mobile Development: React Native, Ionic, Capacitor, Cordova, PWA for mobile, Flutter
- Desktop: Electron, NW.js (packaging, deployment, native APIs)
- Testing & DevOps: Jest, Mocha, RTL, CI/CD pipelines, AWS, Azure, Terraform
- Learning Design: Custom curriculum, enterprise training
- Communication: Workshops, virtual and on-site trainings

PROFESSIONAL EXPERIENCE

Corporate Trainer & Consultant – JavaScript Technologies

Freelance/Contract

Led 300+ workshops, bootcamps, and hands-on sessions for software engineering teams at Fortune 500 clients, focusing on modern JS practices across web, mobile, and desktop platforms.

- Consulted on digital transformation, facilitating migration to React, Angular, Vue.js, and Electron for large organizations.
- Developed and delivered advanced courses on JavaScript, TypeScript, full-stack development, and cross-platform strategies.
- Mentored and certified in-house trainers to ensure sustainable upskilling and knowledge transfer.
- Designed tailored learning journeys addressing real-world business and technical challenges.

EDUCATION

Bachelor of Technology in Computer Science
VTU, Bangalore, 2011

NOTABLE ACHIEVEMENTS

- Authored training content and case studies for business-critical digital initiatives
- Consistent track record of elevating team proficiency and technical confidence across multicultural environments

Other Projects

- Title : JLL.com
Description: A CMS platform built using Adobe AEM
Role : Migrate legacy app to React based web app
Technical skills: React JS

<https://jll.com>
- Title: Telemedicine SaaS platform (Frontend)
Description: A telemedicine video conference SaaS platform built using Angular (v10). A platform which helps doctors & patients communicate through an online platform from different hospitals/clinics
Role: App development & integration with firebase & google login
Technical skills: Angular, NodeJS, Firebase
<https://princetonvirtualhealth.sevaro.com/>
- Title: Telemedicine SaaS platform (Backend)
Description: A telemedicine video conference API's built using NodeJS & Express, with Google firestore DB, hosted on GCP App engine.
Role: API development & integration with payment gateway, sms gateway, creating schedulers, build automation using CI/CD pipelines, generating PDF reports, sending emails.
Technical skills: NodeJS, Firebase, GCP
- Title: Telemedicine SaaS platform (Admin App)
Description: An admin dashboard for the telemedicine app
Role: To be able add, remove clients, monitor daily tracking of calls for each client, enable/disable client app facilities, report generation
Technical skills: NodeJS, Angular, Firebase

- Title: CPFD CMS

Description: A CMS built using wordpress

Role: App development & integration (end to end)

Technical skills: HTML, CSS, JQuery, PHP, MySql, Wordpress
